

Record 29 - Fairview General Hospital - ICU Progress Note, Day 19

****Date of Service:**** 06/29/2026

****Provider:**** Dr. T. Anand, Hospitalist

Patient post first hemodialysis session, hemodynamically stable. Mental status clear. Family updated on new need for dialysis and plan for ongoing nephrology follow-up after discharge.

Assessment: Sepsis, resolved. Acute kidney injury requiring hemodialysis.

Plan: Continue dialysis per nephrology. Begin discharge planning to a facility capable of outpatient dialysis coordination.
