

Record 2 - Crestline Urgent Care - Nurse Telephone Triage Note

Date/Time: 03/03/2026, 21:40

Patient's spouse called reporting patient's abdominal pain "has gotten worse today" and patient now "can't stand up straight." Advised per protocol to continue clear liquids and the anti-nausea medication prescribed yesterday, and to go to the emergency department if pain becomes severe or he develops a fever. Spouse verbalized understanding.
