

Record 2 - Fairview Orthopedic Surgery Center - Post-Op Progress Note

Date of Service: 01/07/2025

Provider: Dr. R. Okafor

POD#1. Patient reports pain 4/10, controlled with oral analgesics. Mild edema and swelling noted in right calf, consistent with expected post-surgical changes. No erythema, no calf tenderness on palpation. Wound clean, dry, intact. Continue enoxaparin 40mg SC daily. Plan to discharge home when PT clears for stairs.
